

Innoveo

Join the enterprise app development revolution

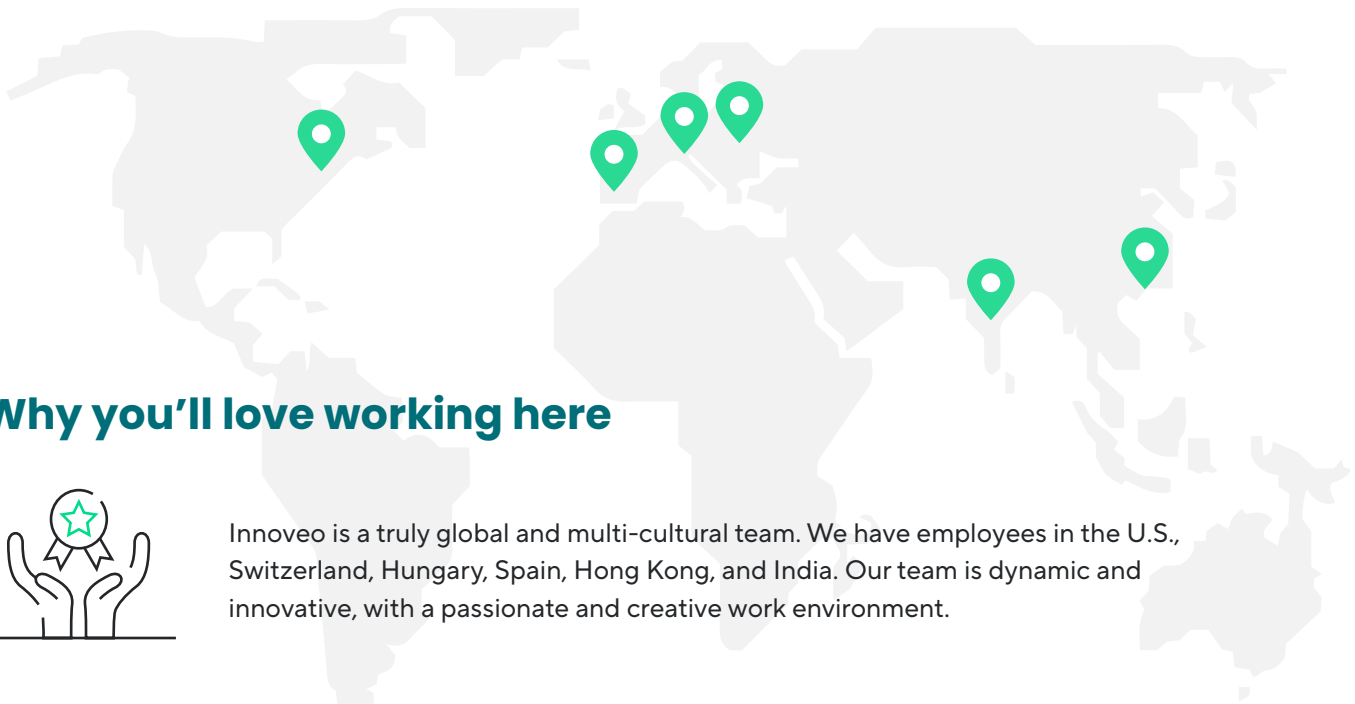

Unlocking innovation with enterprise-grade no-code software

Innoveo is a technology company that empowers innovation for our customers using enterprise-grade no-code software.

Our Innoveo Skye® platform helps businesses accelerate their market growth using the latest technology, launching new solutions in just weeks—not years.

innoveo

Why you'll love working here

Innoveo is a truly global and multi-cultural team. We have employees in the U.S., Switzerland, Hungary, Spain, Hong Kong, and India. Our team is dynamic and innovative, with a passionate and creative work environment.

We provide competitive employee benefits, including high-end mobility equipment, regular team and company-wide events, flexible working hours, and more. At Innoveo, you'll find the work-life balance you're looking for while gaining access to opportunities for personal growth and professional development.

Mission

Empower enterprises in complex and regulated industries to re-imagine application development

Vision

Be the most trusted no-code firm, committed to delivering exceptional impact and agility in our markets of focus

I enjoy the fact that I'm part of a community, not only in my own location, but also globally. To be part of a group where your efforts have footprints is a great feeling. I'd recommend Innoveo for individuals who are open-minded and would like to be part of an agile, vibrant community sharing the same passion. ”

—Galatea Oskó, Hiring & Facilities Manager, Hungary

Our core values

Respect

We communicate respectfully, treat each other decently, and respect others' work.

Responsibility

We trust our teammates to do their work, and responsible, ethical behavior is the foundation of our everyday business.

Success Through People

Everyone's work is integral to our success, from senior software developers to junior infrastructure associates.

Together, Everything is Possible

Teamwork and collaboration are essential for achieving our goals.

Swiss-born precision engineering

Innoveo was founded by Swiss engineers who are quality-obsessed. Innoveo delivers excellence, and our customers rely on it. Our deep expertise in insurance and other highly regulated industries enables us to solve the hard problems—things others might shy away from.

Innoveo provides not only best-in-class technology, but also a thoughtful, no-nonsense experience. We put our meticulous approach and superior engineering to work developing solutions that manage cost and risk at every step. The result is quality work and a quality experience with a personal touch.

That's Innoveo. No surprises. Just results.

“ Having joined Innoveo years ago, it’s always remained an exciting work environment with many technical challenges and great people to work with. On top of that, it’s a dream to build a company and a no-code platform from scratch and see it growing from startup to maturity. This dream came true for me at Innoveo. ”

—Bojan Kalan, Head of Product Development, Switzerland

How Innoveo helps our customers

Decrease time-to-market

Leverage our 25+ pre-built solution accelerators, open APIs, and automation tools to achieve 10X faster development of enterprise applications.

Reduce costs

Shorter and more efficient application development cycle times lead to reduced costs and risk.

Foster collaboration

Enable business and IT teams to work together to accelerate innovation and deliver business value.

Drive change

Deliver winning digital experiences to agents, reinsurers, and end customers by modernizing legacy systems or developing a greenfield solution.

Empower workforce

Business users can harness their expertise to configure applications without any coding, freeing up IT teams to focus on the governance of the infrastructure, processes, and data.

Scale with confidence

IT teams can set up guardrails and best practices to protect against security or compliance issues.

Pursue a career in disruptive technology
